

DIBS Payment Provider module for Tea Commerce

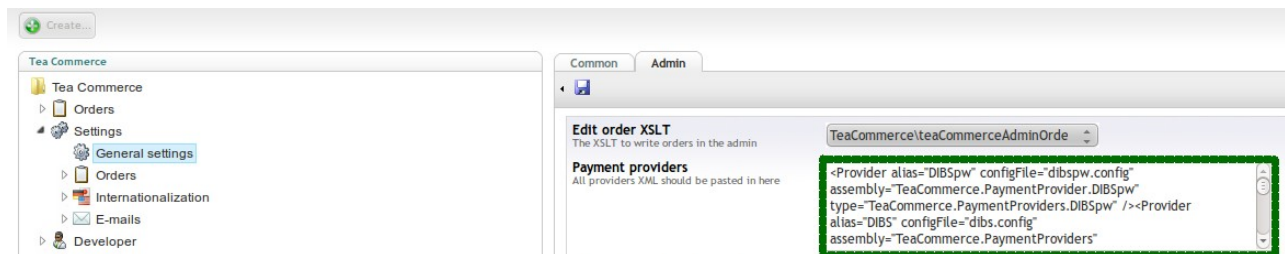

FILES:

1. TeaCommerce.PaymentProvider.DIBSpw.dll
2. connect_module.txt
3. en.xml.txt

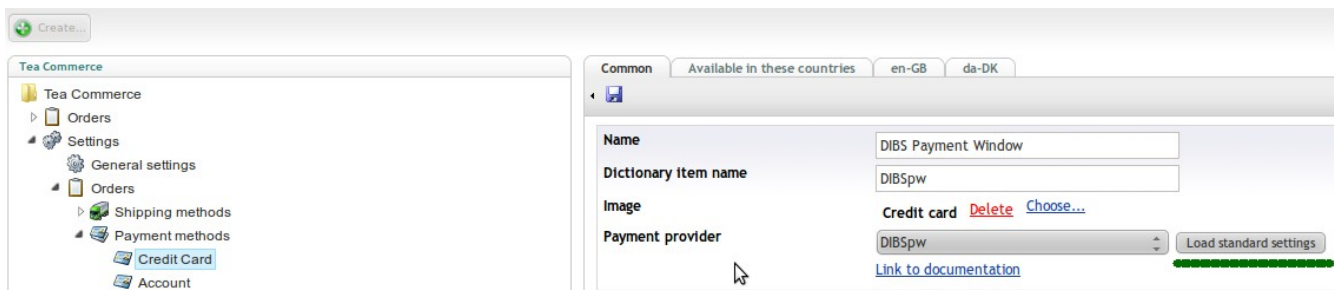

INSTALL:

To install payment provider follow next steps:

1. Setup last Umbraco and Tea Commerce versions. (tested on Tea Commerce Starter Kit 2.0.2.0)
2. Copy TeaCommerce.PaymentProvider.DIBSpw.dll module file to "bin" directory in root path of your website installation.
3. Open Umbraco admin area. (e.g. <http://yoursitename/umbraco/>)
4. Go to "TeaCommerce->Settings->General settings->Admin" and copy line from file "connect_module.txt" to beginning of "Payment providers" field.

5. Go to "TeaCommerce->Settings->Orders->Payment methods->Credit card"
6. Select "DIBSpw" in "Payment provider" dropdown list.
7. Click "Load standard settings" button.

8. Setup your parameters and click blue floppy disk icon to save your configuration.

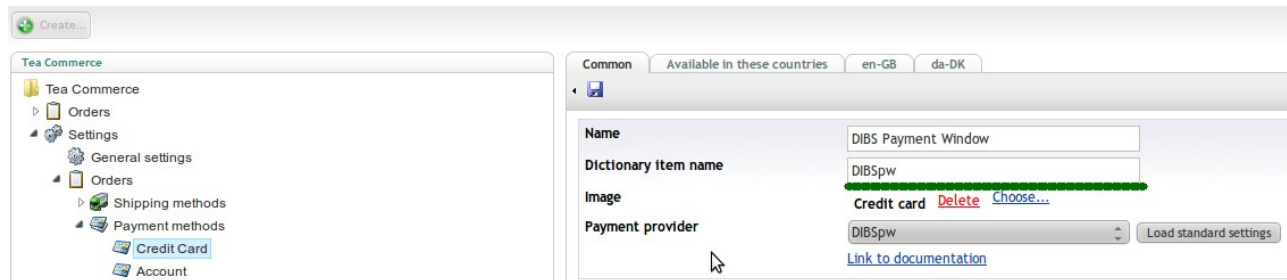

OPTIONALLY:

1. You can copy content of "en.xml.txt" to %site_root_directory%/umbraco/config/lang/ next line to the following:
<area alias="teaCommerce">
2. You can add name and description of payment provider, that should appear during checkout.

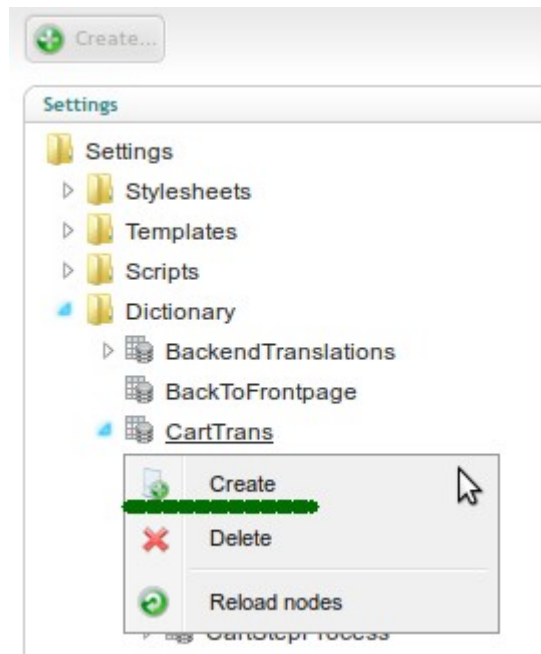

To do this follow next steps:

- a) Set proper Dictionary Item Name in DIBS module settings:

- b) Open Umbraco admin area. (e.g. <http://yoursitename/umbraco/>) and go to "Settings->Dictionary->CartTrans"
- c) Click right mouse button to "CartTrans" and choose "Create"

d) Create one element with name same like you set on step (a) (e.g. "DIBSpw")

e) Same way create element with "Desc" prefix (e.g. "DIBSpwDesc")

f) Click them to edit translations and save each after editing.
